

MageSain

Usage Instructions

Update Date: 20160408

Introduction

MageSain is an outstanding application that plays a role as your Magento mate. It is a bridge between your Magento online store and your mobile phone.

MageSain includes two components: MageSain extension for Magento and MageSain mobile application.

MageSain works as a mobile admin tool for order management. It will send a notification to your MageSain mobile application right after a new order is created in your store, and you may process the orders with MageSain mobile application. Simply update the order status & details, send invoices, perform shipment management with MageSain mobile application.

Highlights

- Statistics for orders
- Search for orders
- Process orders with mobile phone : Hold, Ship, Invoice (send email), Cancel, Edit addresses

Before Buying

Sain3 sincerely hopes this extension can play an effective role in your business. So we would like you to identify the following terms:

- Compatible with: 1.6.x, 1.7.x, 1.9.x
- Both MageSain extension for Magento and MageSain mobile application should have been installed and configured.
- Purchase MageSain extension for Magento in product.sain3.com. Always ensure this extension is current for your needs. There is no refund.
- MageSain mobile application for Android is FREE. Currently we do NOT provide MageSain mobile application for iOS.

Usage Instructions

Step 1: Installation

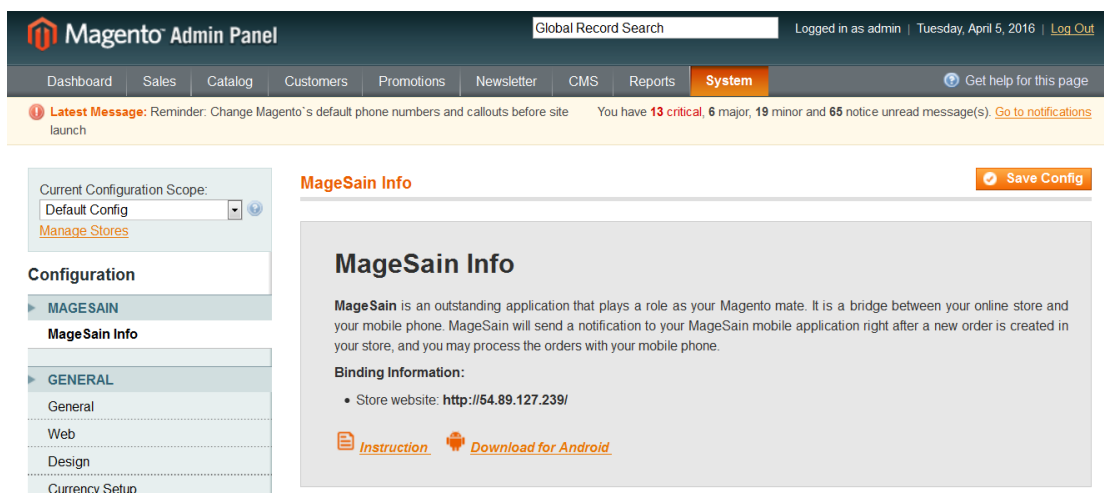

1.1 Install MageSain Extension for Magento

- Purchase MageSain Extension in product.sain3.com:

<http://product.sain3.com/magesain.html>

- Download the Sain3_MageSain-x.x.x.tgz package file.
- Magento Admin Panel -> System -> Magento Connect -> Magento Connect Manager -> Extensions -> Direct package file upload.
Upload the Sain3_MageSain-x.x.x.tgz package file.
- After successfully installing this extension, you may see MageSain Info in Magento Admin Panel -> System -> Configuration -> MAGESAIN.

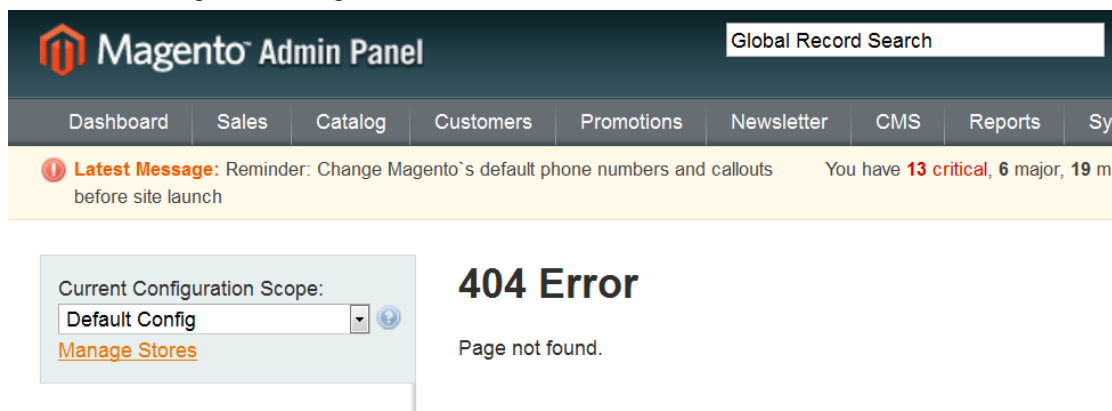

Store website is the magento website in which you have installed MageSain extension.

- 404 Error

After you install the extension and clear the cache, you might see 404 Error when you try to see MageSain Info.

Solution: Just log out and log back in.

1.2 Install MageSain Mobile Application

- Get it on Google Play:
<https://play.google.com/store/apps/details?id=com.sain3.magentoadmintools>
- Or directly download the APK installation file for Android:
<http://s3.image.sain3.s3.amazonaws.com/MageSainAPP/MageSain1-0-0.apk>
